Intersection Improvement Project at Harlem Avenue and 46th/47th Street

CHICAGO – The Illinois Department of Transportation (IDOT) announced that lane closures will take place at the intersection of Harlem Avenue (Illinois 43) and 46th/47th Street, in Forest View, beginning, weather permitting, Tuesday, June 6. The closures are necessary for an intersection improvement project.

In order to complete the work, Harlem Avenue will be reduced to one lane in each direction when necessary. Temporary traffic signals will be utilized for the duration of the project.

The scope of the project includes new traffic signals, pavement patching, widening and resurfacing. The project also consists of removal and replacement of curb and gutter as well as storm sewer installation and new striping. The overall project will be completed in Fall 2017.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
